

INTERESTED IN SELLING YOUR MINERAL RIGHTS BUT NOT SURE WHO TO TALK TO?

Krown Energy Group has a combined 26 years of experience working as Petroleum Engineers in both conventional and unconventional resource plays. Along the way we have built strong relationships with businesses and individuals that are active in the acquisition of mineral rights and also leasing. We are not mineral buyers ourselves and focus strictly and exclusively on the mineral owner.

Generally speaking, most experts, including us, will advise clients to hold on to their mineral rights; however, we understand there are certain cases and circumstances where a person is looking to sell their mineral rights. We started this brokerage service in early 2019 because we recognized that some of our clients were interested in selling but didn't have anywhere to turn for help except for to rely on the companies that were sending them letters to buy their minerals.

Whether you are simply wanting an independent valuation (to compare with the letters you are receiving in the mail from mineral buyers), or you would like to sell your mineral rights, we have a solution for you. Our team of petroleum engineers has a strong pulse on the market, is well connected in the industry, and represents solely the mineral owner. If you are thinking about selling your mineral rights, come see us first, to ensure you receive the highest value possible.

Qualifications:

Jeff Kummer

- Petroleum Engineer
- Mineral Manager

Joel Brown

- Petroleum Engineer
- Project Management
- Reserves Analysis & Reporting

“Offering a brokerage service to our clients was not in our original business plan, but we were seeing more and more clients with an interest in selling their mineral rights for one reason or another and thought if we don't help them look out for their best interest then who will?”

“When a client comes to us with an interest in selling their mineral rights, we want to make sure they are well informed. For starters we help them understand what the future income potential looks like if they hold on to their mineral rights. If they are still interested in selling, then we put together a package and work hard to bring them the highest value
